

Honors & Awards

Academic Achievement Award

Description: Awarded by Campolindo High School to one student for each teacher for academic achievement, class participation, leadership, teamwork, etc.

- 2024: AP Chemistry
- 2025: AP Calculus AB
- 2026: Orchestra Cello Section Leadership

Presidential Volunteer Service Award – Gold Level

- Awarded the highest possible national award for more than 250 hours of community service in the 2024-2025 school year

Nexus Research Journal Research Publication

- Published as one of two papers in Nexus Research Journal, an international high school research paper, for my research on Type 1 Diabetes using computational bioinformatics (see more here)

John Muir Health Medical Center Auxiliary Scholarship Award Winner

- One of nine seniors who earned this scholarship
- Earned for commitment to community service, passion for healthcare, and accomplishments

BioOlympiad Honorary Mention

- Earned honorary mention for scoring in the top 20% of all testakers nationwide for the US Biology Olympiad Test

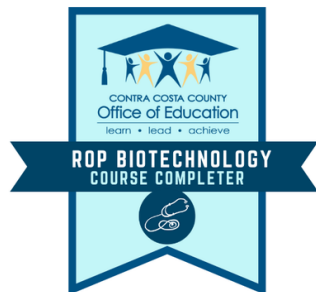

miRcore Volunteer Award

- Earned the 100+ Hour Commitment Award in 2025 for my time spent doing research, fundraising, being a TA for the summer camp, and advocacy at miRcore

Certifications

ROP Biotechnology

- Earned certification to start biotechnology job
- Description: This badge is awarded to students who successfully completed CCC ROP Biotechnology course. This course provides students with the opportunity to develop their laboratory techniques and scientific concepts used in the field of bioscience. Students enhance their problem-solving skills as they design and conduct their own experiments and develop critical thinking skills through research and discussion about issues related to advances in biotechnology. Lab topics include extraction and analysis of DNA, electrophoresis, bacteriological techniques, culturing strains of bacteria, and determining and making solutions. Plasmids are used to achieve bacterial transformation. Discussions on DNA, ethics, technology, and society acquaint students with the major issues in this rapidly developing field. Students conduct individual and team research projects, using effective technical writing skills to express the results of their work. Sound laboratory procedures and safety are stressed. Students read and analyze research publications and scientific literature, preparing them for post-secondary education while exploring scientific career paths.
- Learned skills in micropipetting, gel electrophoresis, centrifugation, PCR, extraction & analysis of DNA, culturing strains of bacteria, and more
- Certification found here:

 - Can I add a pdf to the website?

○

CNA Certification

Earned July 14, 2026

- Course taken at Nightingale Health Professionals
- Learned skills in ____

Coursera Cancer Specialization

- Took 3 courses by Johns Hopkins University on
 - Introduction to the Biology of Cancer – Certificate
 - Understanding Cancer Metastasis – Certificate
 - Understanding Prostate Cancer – Certificate
